

AMENDMENTS TO THE CLAIMS

In the Claims:

1. (Cancelled)
2. (Cancelled)
3. (Cancelled)
4. (Cancelled)
5. (Original) A system for wirelessly connecting a computer device to a server, the system comprising:
 - a computer device comprising:
 - a location generator for generating data related to the location of the computer device;
 - a memory for storing server phone numbers based on location;
 - a processor for retrieving a server phone number from the memory based on the generated location data, and for generating a request that includes the generated location data if no server phone number corresponds to the generated location data; and
 - a communication device for wirelessly connecting the computer device to a server using the retrieved server phone number, and for wirelessly sending the generated request to a default phone number; and
 - a phone number lookup device associated with the default phone number, the phone number look-up device comprises:
 - memory for storing server phone numbers based on location;
 - a communication device for receiving the request from the computer device; and
 - a processor for retrieving a server phone number from the memory based on the received request,
